FROM: Rear Admiral William L. Stubblefield, NOAA

SUBJECT: NOAA Environmental Compliance Policies

Attached for your information and distribution are the current versions of NOAA's Environmental Compliance Policies developed by the Office of Finance and Administration, Environmental Compliance Staff. They are NOAA Environmental Compliance Policies:

- 98-01 - NOAA Environmental Funding Policy;
- 98-02 - NOAA Environmental Corrective Action Resolution Policy;
- 98-03 - NOAA's Accounting Policy for PP&E Cleanup Costs;
- 97-01 - NOAA Environmental Audit Policy (revised);
- 97-02 - NOAA Environmental Project Management Policy (revised); and
- 97-03 - NOAA Shipboard Environmental Compliance and Liability Policy.

You may recall that our staffs provided input for the development of these policies. Working copies of these documents have been distributed informally and have been available for use by our respective environmental compliance personnel. The documents appear to accurately reflect environmental-related policies and procedures currently being followed throughout NOAA Corps Operations.

These and all current NOAA environmental-related administrative orders and directives can be found on the world wide web at NOAA's Environmental Compliance homepage. The internet address for the homepage is www.ecs.noaa.gov. Please contact Bill Cunningham of this office if there are any questions or concerns regarding these policies.
